

Drone Pressure Washing Pilot

Innovative Technology | Exterior Cleaning Services

LOCATION

Raleigh, NC & Surrounding Areas

TYPE

Full-Time

SCHEDULE

Flexible Availability

Position Overview

Blink Facility Solutions is looking for a motivated, dependable professional to join our growing Drone Services Team. This role uses commercial drone technology to perform exterior pressure washing and soft-washing services safely and efficiently. No drone experience is required, but candidates must be committed to training and earning FAA Part 107 certification.

Key Responsibilities

- Support and operate commercial pressure-washing and soft-washing drones.
- Clean commercial building exteriors, facades, roofs, windows, and other approved surfaces.
- Complete pre-flight, site-safety, and post-flight inspections.
- Assess work areas, identify hazards, and establish safe operating zones.
- Set up hoses, pumps, cleaning systems, and supporting equipment.
- Follow FAA requirements, manufacturer guidelines, and Blink safety procedures.
- Maintain drone equipment, batteries, cleaning systems, and service records.
- Travel to client locations and communicate professionally with customers and teammates.

FAA Certification Support

Blink will provide on-the-job drone training, FAA Part 107 study materials, and guidance toward earning a Remote Pilot Certificate. Candidates must demonstrate a genuine interest in studying, learning the equipment, and growing within this field.

Required Qualifications

- Valid driver's license with a clean driving record.
- Availability for mornings, evenings, and occasional weekends.
- Ability to lift 50+ pounds and work outdoors in varying conditions.
- Comfort working around buildings, equipment, hoses, and active job sites.
- Strong reliability, safety awareness, and willingness to learn new technology.

Preferred Experience

Pressure washing, soft washing, exterior cleaning, facility services, mechanical, or previous drone experience is helpful but not required.

What We Offer

- Paid on-the-job training and company-supported FAA Part 107 certification.
- Work with innovative drone-cleaning technology.
- Career advancement, competitive compensation, and a supportive team environment.
