

# Project Multi-Surface Floor Care Technician

Specialty Services Division | Career Growth Opportunity

## LOCATION

Raleigh, NC & Surrounding Areas

## TYPE

Full-Time

## SCHEDULE

Evenings & Some Weekends

## Position Overview

Blink Facility Solutions is seeking an experienced, dependable, and detail-oriented Project Multi-Surface Floor Care Technician. This role delivers professional floor maintenance and restoration across commercial environments and is ideal for someone who takes pride in visible, high-quality results.

## Flooring Surfaces

VCT, LVT, carpet, tile and grout, concrete, terrazzo, rubber, and specialty commercial flooring.

## Key Responsibilities

### Floor Care & Restoration

- Strip, wax, scrub, seal, refinish, burnish, and maintain commercial floors.
- Perform carpet extraction, spotting, and restoration.
- Clean and restore tile and grout surfaces.
- Polish and maintain concrete and terrazzo.
- Select appropriate methods and products for each floor type.

### Equipment & Project Execution

- Operate auto scrubbers, swing machines, burnishers, extractors, polishers, and specialty equipment.
- Inspect and maintain equipment; safely transport chemicals, tools, and supplies.
- Complete projects on schedule and according to specifications.
- Maintain project documentation and report safety or maintenance concerns.
- Communicate professionally and represent Blink well at every client site.

## Required Qualifications

- Valid driver's license with a clean driving record.
- Evening, overnight, and occasional weekend availability.
- Ability to lift and move 50+ pounds.
- Reliable transportation, dependable attendance, and strong attention to detail.
- Ability to work independently and as part of a team.

## Preferred Experience

- Commercial floor care, including VCT strip and wax.
- Carpet extraction, tile and grout cleaning, concrete polishing, or specialty restoration.
- Janitorial, custodial, or facility maintenance background.

## What We Offer

- Paid training and professional development.
- Company equipment and safety training.
- Specialized project experience and career advancement opportunities.
- Supportive team environment with long-term growth potential.
